

Dear CBPOA Homeowner,

According to HOA bylaws, “members are required to have private septic tanks pumped at an interval ***NO GREATER THAN 5 YEARS*** and provide the CBPOA with a record of this information to include inspection comments when completed, requested and required.”

We need to keep our septic clean and avoid issues when septic tank neglect causes wastewater issues for our entire community.

Please complete the form below and attach your receipt from your most recent septic cleaning. Email both to: Candace O’Connell Email - Packerfan@imaxmail.net.
